b3			
"b3a"	"b3b"	"b3c"	

7) Special:

These function like Masks, overlaying on top of every facial feature that's listed above.

You can remove these either by refreshing the sprite (with a function or just hiding her again), or by using the remove tag feature (example: "show sayori -s_scream")

Unlike MPT, these do allow for the mouth to be changed.

"s_scream"	"s_scream alt"	"s_dark"

8) Sweat:

9) Eyemarks:

10) Tears:
